VIVAHA

YOUR AI WEDDING CONCIERGE

Student: Priyanshi Mehta
Mentor: Dr. Amit Sinhal
Subject: Software Engineering
CSE, J KLU

PROBLEM STATEMENT

Indian middle-income families struggle to plan weddings without professional support. With 50+ vendors and coordination between hundreds of family members, the process becomes chaotic and stressful.

Professional planners are unaffordable. Famililes rely on informal WhatsApp groups leading to **vendor conflicts, cost overruns & immense stress.**

OBJECTIVE

- Centralize all wedding planning in one platform
- Make pro-grade tools affordable for all families
- Eliminate vendor double-bookings
- Real-time budget tracking with alerts
- Connect couples, vendors & admins seamlessly

UNIQUE SELLING POINTS

- AI Concierge — Aira for instant advice
- Real-time Budget Tracker
- Curated Indian Vendor Marketplace
- 3 Role-based Dashboards
- Countdown & Digital Wedding Invite

LIMITATIONS

- No persistent database in current prototype
- Payment gateway not yet integrated
- Moodboard images don't persist on refresh
- Professional planners still needed for large events

ANALYSIS & PLANNING

Design Thinking methodology:

- **Empathize — User research**
- **Define — Problem Canvas**
- **Ideate — Feature planning**
- **Prototype — AI Studio + React**
- **Test — 29 manual test cases**

USER CATEGORIES

- **Couple** — Plan & manage wedding
- **Vendor** — Manage profile & bookings
- **Admin** — Platform management
- **AI Concierge** — Aira assistant

TESTING SUMMARY

24	29
PASS	TOTAL

- 29 test cases across 7 modules
- Manual Black-Box System Testing
- Modules: Login, Vendor, Budget, Guest, Checklist, Notifications, Moodboard

FUTURE SCOPE

- Firebase/Supabase database integration
- AI-powered budget prediction engine
- Real-time vendor-couple chat
- SMS/Email booking notifications
- React Native mobile app version

CONTRIBUTIONS

- **Priyanshi Mehta**
- Frontend Dev & Architecture
- SRS & SDD Documentation
- 29 Manual Test Cases
- CI/CD Pipeline Setup
- UML Diagrams (Draw.io)
- Vercel Deployment

KEY FEATURES

- Role-based Login (3 roles)
- Vendor Discovery & Booking
- Budget Tracker (₹)
- Guest RSVP Management
- Wedding Task Checklist
- Inspiration Moodboards
- Real-time Notifications
- Aira AI Concierge
- Live Demo Available

CONCLUSION

Vivaha revolutionizes Indian wedding planning by providing an affordable, centralized digital platform — replacing chaotic WhatsApp coordination with structured, tech-driven tools accessible to every middle-income family.
